

Empire ES Engineering Projects (on-campus)

Short-Term Parking Spaces

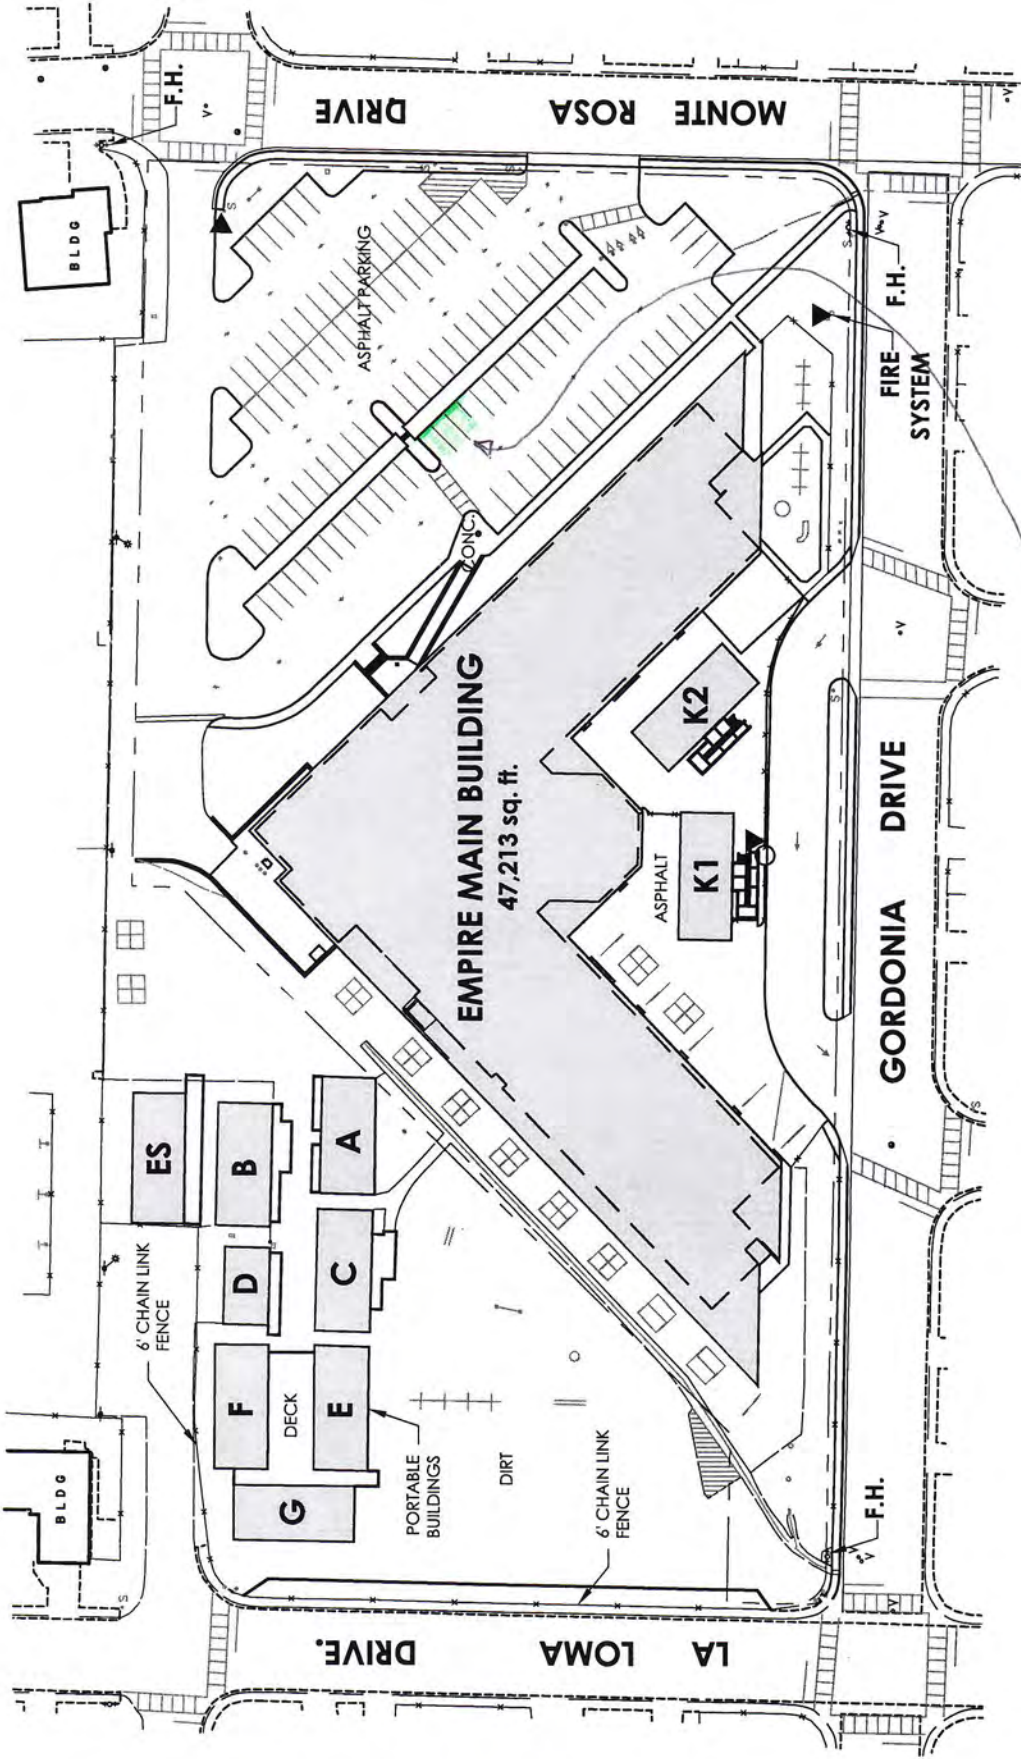

Three short-term parking spaces will be added to the main parking lot northeast of the school building. These spaces will have green curbs and corresponding green bordered 30-minute parking limit signs. The purpose of these three spaces is to provide capacity close to the school entrance for parents and other people having business with the school which requires them to park and enter the school. These people are currently illegally using red curbs and inappropriately using yellow curbs because they do not immediately see other choices. There is ample overall parking in the main lot.

Cost

Note: Sign items include post and installation; the base sign cost is shown in the description.

MUTCD R7-108-30 sign "30 Min Parking 8:00 to 3:30", right arrow, 12x18, 1 at \$20	200
MUTCD R7-108-30 sign "30 Min Parking 8:00 to 3:30", left arrow, 12x18, 1 at \$20	200
traffic/curb paint, green, about 24 feet, at \$4/ft	96
<i>subtotal</i>	<i>\$496</i>
