Action Plan
School: Seeliger Elementary

Committee Members:
Michelle Van Voorst
Cynthia Gardner

Problem	Solution	Action needed	Who will do it?	When?
Sidewalks obstructed by waste receptacle bins on garbage pick-up day	Draft letter to Waste Management requesting they remind their patrons to place bins in the street, not on the sidewalk	Write letter to WM subject to school principal's approval	Cynthia Gardner	Apr-06
Motorists not always yielding to people in crosswalks	Request portable crosswalk signs from the City	Contact city or Public Works	Cynthia Gardner	Apr-06
Crossing Guards: too few; how can they help educate kids	Develop tips for crossing guards; find out if we can have more crossing guards	Contact Mike Mitchell at CC School District	Arleen Richartz	Apr-06
Some parents dropping students off in travel lane of drop off area, instead of pulling up to curb; students have to cross in front of other cars.	Educate drivers	Send out notices or student homework to address the problem	SR2S Committee Members	2006?
Not enough awareness of pedestrians and traffic safety	Work with high school students to make an informational video on traffic safety	Contact High School or local cable TV station for Public Safety announcements	Cynthia Gardner	2006?
Need volunteers for event days	Request school parents, MP members, prominent community members	Send out letters and announcements	SR2S Committee Members and Arleen Richartz	Apr-06
Not enough students walking to school; many parents dropping off students, which decreases safety near school	Host walk-a-child to school day	Arrange for breakfasts, flyers, volunteers, etc.	Michelle Van Voorst, PE teacher	May, 2006
